Francisco Alvarado

Enthusiastic and detail-oriented Junior Java Stack Developer with a passion for crafting efficient, high-quality code. Eager to contribute technical skills and collaborative mindset in a dynamic software development environment. A recent graduate with a solid foundation in Java programming, database management, and web development. Seeking an opportunity to apply and enhance my skills while actively contributing to innovative projects.

Projects

JAC-Enterprises — Airforce education

- Designed to be used in browsers, this app offers a very intuitive scene for children's education.
- Created using a handful technologies such as Java, React, Spring Boot, HTML, CSS and H2 – database.
- This app uses 3 different APIs with CRUD procedures.

Blackjack — Casino blackjack

- Created using Java, Html and CSS.
- It's a game inspired by the World-Famous casino game Blackjack.

Capstone Project — PCRS (Personalized Computer Recommendation System)

- A group project creates a personalized experience for all users.
- Designed using Java, React, HTML, CSS and MySQL.
- Integrating revolutionaries' technologies as AI to provide an exciting trip to our users.
